Importance: High

Marlon,

This will be a great time for some of your team to see all of these heaters. I'd like to see at least 2 of your team out there for these inspections. Please ask the guys and get back to me soonest.

Damien, FYA for OT

Dean.

Subject: Switch Heater Inspection

Dean,

As per our conversation. T&C will be performing inspections and start-up of the 26 electric Track Switch Heaters along the guideway. If you can provide some of your technical resources to support us during this work, we will perform a knowledge transfer so your team know as much about the units as we do.

Please let me know who you can provide for this work. They can meet Mekonnen and Agata on Saturday, November 10th at 8am at the MSF.

Steven Nadon
